PROPERTY DESCRIPTION

This wonderful Santa Clara area home offers 4 bedrooms, 2.5 bathrooms and approximately 2,338 square feet. A covered front porch and a light and bright entry with tile flooring greet you as you step into the home. Just off of the entry is the formal living room and attached formal dining room. The dining room has easy serving access to the kitchen. The great kitchen features oak cabinets, tile counters, a center island, white, built-in appliances, a pantry and disposal. An eating area is conveniently located between the kitchen and family room, creating a great room affect. The family room has a large sliding glass door to the back deck and yard and a gas fireplace. You can also find a half bathroom and a utility room with access to the 2 car garage on the main level. The staircase, up from the entry, has an oak banister and spindles. At the top of the staircase is a great bonus room with storage space that would make a great media, office or guest room. The master suite, 3 more bedrooms and a full bathroom are located on the upper level. The master suite offers a vaulted ceiling, built-ins, a large walk-in closet and a private bathroom with double sinks, tile counters, a skylight and a stall shower.

The back yard features a newer, partially covered composite deck, a fenced yard with great landscaping and a newer tool shed or shop custom built to match the house.
